

Education

SRM Institute of Science and Technology B.Tech · Computer Science and Engineering	2023 - 2027 CGPA - 9.15/10
Asian School Class XII - CBSE · PCM · Muzaffarpur Bihar	2023 Percentage - 81.8%
Sunshine Prep High School Class X - CBSE · Science and Mathematics · Muzaffarpur Bihar	2021 Percentage - 91.2%

Experience

Edunet Foundation - AICTE Internship View Certificate Artificial Intelligence & Machine Learning · Internship Completed a 6-week internship in Artificial Intelligence and Machine Learning with Edunet Foundation in collaboration with AICTE and IBM SkillsBuild. Gained hands-on experience in machine learning algorithms, data preprocessing, and model evaluation . Worked on hands-on projects and gained practical knowledge in AI, machine learning, and real-world applications.	Jan 2026 - Feb 2026 Remote
Bluestock Fintech View Certificate Data Analyst · Internship Worked as a Data Analyst Intern at Bluestock Fintech , performing data cleaning, preprocessing, exploratory data analysis (EDA) , and visualization on financial datasets. Generated actionable insights through trend analysis and reporting to support business intelligence and data-driven decision-making.	Apr 2026 - Jun 2026 Remote
HCL Tech Azure DevOps · Internship Working as a Technology Intern at HCLTech , gaining hands on experience with the Microsoft Azure platform and contributing to client-oriented technology initiatives under the guidance of a mentor. Developing practical exposure to cloud services, enterprise workflows, and Azure based solutions while working within professional security and confidentiality standards.	Sep 2026 - Present Remote

Projects

Spatio-Temporal Edge Intelligence Framework for Resilient Geospatial IoT-Based Climate Anomaly Detection Project Link · Python, NumPy, KNN, Isolation Forest, SVM, Edge Computing, FastAPI, React, Data Visualization • <i>Spatio-Temporal Edge Intelligence Framework for Resilient Geospatial IoT-Based Climate Anomaly Detection</i> is a real-time climate anomaly detection framework using IoT sensors, edge computing, and machine learning to monitor temperature, humidity, rainfall, and air quality data. Leveraged spatio-temporal analytics by combining spatial relationships and temporal patterns to identify anomalies, while providing real-time insights, alerts , and dashboard-based visualization for intelligent environmental monitoring and decision support.	Feb 2026 - Apr 2026
CineSuggest Project Link · Java, Spring Boot, HTML, CSS, JavaScript, MySQL, REST APIs • Developed a <i>MOVIE REVIEW AND RECOMMENDATION SYSTEM</i> a full-stack web application using HTML, CSS, JavaScript, Spring Boot, and MySQL to manage movie reviews and ratings. Implemented REST APIs and CRUD operations for storing user data and generating personalized movie recommendations based on user preferences.	Sep 2025 - Nov 2025
Leftover Food Management System · Java, OOP, JDBC, MySQL, Java Swing, REST API, Spring Boot, React, HTML, CSS • Developed a <i>Leftover Food Management System</i> using Java OOP to help manage and redistribute surplus food efficiently. Implemented JDBC connectivity with MySQL and built a simple GUI-based interface to store, retrieve, and manage donation and request records, supporting better food distribution and reducing wastage.	Sep 2024 - Nov 2024

Blood Group Detection Using Fingerprints | [Project Link](#)

Aug 2025 - Nov 2025

- Python, PyTorch, OpenCV, NumPy, Pandas, CNN, Image Processing, Flask, Scikit-learn, Matplotlib, React, HTML, CSS
- Developed a **non-invasive Blood Group Detection System** using **Convolutional Neural Networks** to analyze fingerprint images, providing a fast, contactless alternative to traditional blood tests. Implemented the model using **Python, PyTorch, OpenCV, NumPy, Pandas, and Scikit-learn** for image preprocessing, feature extraction, and classification, achieving **96.8% prediction accuracy**.

Skills

Programming Languages: Python, C, C++, Java, JavaScript, HTML, CSS

Languages and Frameworks: React.js, Node.js, Spring Boot, FastAPI, Flask, Django, Flutter

Tools and Technologies: MySQL, OpenCV, PyTorch, Matplotlib, Git

Design and Simulation Tools: Figma, Framer, Canva

Domain Knowledge: Data Structures & Algorithm, AI, ML,DL, NLP, Data Science, IOT, AIOT, Object Oriented Programming, DBMS, Operating System, Computer Networks, Cloud Computing, Web Development

Certificates & Certifications

SAP Certified - Back-End Developer - ABAP Cloud | [Certification Link](#)

Apr 2026 - Apr 2027

SAP

Introduction to Machine Learning | [Certification Link](#)

Sep 2025

NPTEL

Data Analytics Job Simulation | [Certificate Link](#)

Jul 2025

DELOITTE

Artificial Intelligence Fundamentals | [Certificate Link](#)

Feb 2026

Publications

Spatio - Temporal Edge Intelligence Framework for Resilient Geospatial IoT - Based Climate Anomaly Detection | [Research Paper Link](#)

Jun 2026

IEEE International Conference on Innovations in Engineering and Technology

Co-authored an **IEEE ICIET 2026** accepted research paper on climate anomaly detection using **IoT, Edge Computing, Machine Learning**, and **Geospatial Analytics**. Developed a **spatio-temporal framework** leveraging KNN-based spatial analysis and temporal anomaly detection on environmental data to enable **real-time monitoring, alerts** and **data-driven decision support**.

Position of Responsibility

Events Lead - CloudX SRM University

Feb 2025 - Feb 2026

- Organized and managed technical events, workshops, and competitions as Events Lead at CloudX SRM University.

Member | [View Membership](#)

Aug 2023 - May 2027

- IEI - Institution of Engineers

Founder - LILY Studio | [Lily.Studio](#)

July 2026

- Founded LILY Studio, a design and development agency helping businesses build distinctive digital presence and shape their brand, growth, and content through UI/UX, web development, brand strategy, social media, and marketing.
